Professional Summary

Java Full-Stack Developer with 1.5+ years of professional & internship experience in designing, developing, and maintaining enterprise applications using Java, Spring Boot, Hibernate/JPA, ReactJS, and SQL/NoSQL databases. Skilled in system analysis, API design, data modeling, microservices, and cloud services (AWS, Docker).

Technical Skills

Programming Languages: Java (8, 11), SQL
Backend Technologies: Spring Boot, Spring MVC, OOPS, RESTful APIs, Microservices
Frontend Technologies: JavaScript (ES6+), ReactJS, HTML5, CSS3, Bootstrap
Databases: SQL Server, Postgres, MySQL, MongoDB, Redis
DevOps & Cloud: Docker, AWS DevOps, CI/CD Pipelines, Linux, Grafana, Prometheus
Messaging & Testing: Apache Kafka, Postman
Build & Tools: Maven, Git, GitHub, Jira, Confluence

Experience

SS&C Technologies

July 2024 – June 2025

Software Engineer

Pune, Maharashtra

- Developed and optimized RESTful APIs using Java, Spring Boot, and Hibernate for workflows like policy management, claims, and premium transactions, ensuring scalability for high-volume insurance operations.
- Enhanced frontend performance with ReactJS, JavaScript, HTML, and CSS by integrating real-time dashboards and interactive components for a responsive user experience.
- Performed system analysis and optimized backend logic & SQL queries, reducing data retrieval time by 30% and translating insurance workflows and business requirements into seamless technical solutions.
- Collaborated in Agile sprints with cross-functional teams, managing code reviews, CI/CD pipelines, and implementing role-based access control to ensure secure and maintainable solutions.

SS&C Technologies

April 2024 – June 2024

Associate Software Engineer

Pune, Maharashtra

- Developed backend services using Java, Spring Boot, and Hibernate, applying OOP principles and implementing RESTful APIs for transactions and registry platform management.
- Built a responsive front-end with ReactJS, JavaScript, HTML, and CSS, providing real-time updates, interactive charts, and notifications for enhanced user experience.
- Collaborated with cross-functional teams to translate requirements into technical solutions, ensuring seamless integration, optimized performance, and data security across the platform.

Colgate-Palmolive

June 2023 – Jan 2024

Fullstack Developer Intern

Remote

- Developed full-stack features using Java, Spring Boot, and JavaScript, integrating RESTful APIs and backend logic.
- Optimized backend workflows, data integration, and database queries for high-volume enterprise operations.
- Implemented JWT-based authentication, role-based access control, and global exception handling with logging.
- Collaborated with analysts and cross-functional teams in Agile sprints, managing CI/CD pipelines and deployments.

Project

Ecommerce Application | Java, Spring Boot, OOP, PostgreSQL, Redis, Kafka, JWT/OAuth2

Jun 2025 – Present

- Implemented full-stack features for address, cart, products, categories, coupons, wishlist, bundle purchases, and profile impersonation using Java, Spring Boot, REST APIs, Redis caching, and Kafka.
- Built secure authentication and authorization with JWT, and integrated a payment window for seamless transactions.
- Developed Kafka-based asynchronous notifications and tested APIs using Postman to ensure reliability and maintainability.
- Implemented controller-level and global exception handling with logging to ensure consistent error responses and traceable application behavior.

Education

MIT Academy Of Engineering, Pune, India

Aug 2020 – May 2024

B.Tech in Computer Science and Engineering — CGPA: 8.44/10 (81.18%)

Pune, Maharashtra, India

Certifications

Microsoft Certified: Azure AI Fundamentals AI-900

Oracle Certified: Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25)
